

# The Only Overhead Conveyor System That Stands Up To Time Better Than Ours.

OK. So it hasn't been centuries since we introduced enclosed track overhead conveyors. Just a little over half of one. But ours are built to last. We start with 7-gauge steel track – heaviest in the industry. Add a strong precision chain for smoother operation. And put more wheels per foot to reduce wear. The result is a system that stands up to time. And you. Again. And again. And again.

 **RICHARDS-WILCOX™**  
We Can Handle Anything.

*For free product literature about all four of our conveyor systems, please call 1-800-877-8456, ext. 4. Or fax us your specs at 1-708-897-6994.*
